Report on Industrial visit to Saras Plant

Objective: The major purpose of the visit was to learn about the trends going in the largest milk industry of Rajasthan and to learn the work culture in the plant.

About the Visit: With this objective the industrial visit was conducted on 11th March 2023 under the guidance of Dr. Kulvindar Singh. The Jaipur Dairy was registered under the Cooperative Act 1965 in the March 1975. The plant started its production by procuring 250 liters of milk per day. It was commissioned in the year 1981 under Operation Flood Program started by National Dairy Development Board to provide service to thousands of rural farmers of not just Jaipur but also Rajasthan. Jaipur Dairy has license capacity to produce 6-7 Lakh Litre per Day (LLPD) however, the installed capacity is 2 LLPD and it is being 100% utilized. The Jaipur Dairy covers the area of Jaipur and Dausa. It covers 1200 villages. They have made growth in all the fields i.e. procurement, processing, production of milk in addition with several milk. Several other products of the company are Curd, Lassi, Ghee, Butter, Chhach, Paneer, Shrikhand, Flavoured Milk, Ice Cream, and Rasagulla products under the brand name of 'SARAS'. They have separate unit for quality control and testing laboratory. They also have a team of expert engineers who help in removing technical problems. The milk is the major product, which comes in four variants - Double Toned, Toned, Standard, and Gold (depending on the fat content).

Report on Field Visit to PUSHKAR

Objective: The primary objective of this educational excursion was to provide students with a practical understanding of geographical concepts, cultural landscapes, and human-environment interactions.

About the visit: Students of the Geography Department of the College, along with Head of Department Dr. Harlal Meel and other faculty members, were taken for a geographical tour to Pushkar (Ajmer) on 4th March 2023. Pushkar is known for its cultural and religious significance, as well as its geographical features. The trip aimed to explore the natural and cultural aspects of Pushkar, offering students an immersive experience in a diverse geographical setting. The visit to Pushkar Lake provided students with insights into the significance of water bodies in arid regions. The lake is not only a geographical feature but also holds cultural and religious importance. Students had the opportunity to analyse the surrounding landscape, understanding the impact of the Aravalli Range on the region's topography and climate. The ghats surrounding Pushkar Lake and the various temples in the town contributed to the cultural landscape. Students conducted surveys to gather information on the demographics, economic activities, and environmental concerns. The trip provided students with an opportunity to apply theoretical concepts learned in the classroom to real-world situations. Exposure to the cultural aspects of Pushkar contributed to a broader understanding of the interconnectedness between culture and geography. The geography trip to Pushkar was a valuable and enriching experience for students, providing them with a practical perspective on geographical concepts and human-environment interactions. The trip enhanced their observational skills, cultural awareness, and geographical knowledge.

Report on Field Visit to Ranthambore

Objective: The primary purpose of the field visit to Ranthambore National Park was to assess the biodiversity, conservation efforts, and the overall ecological health of the park.

About the visit: Department of Science organized a field visit to **Ranthambore National Park on 11th February, 2023** for students. Ranthambore National Park, located in the Sawai Madhopur district of Rajasthan, is renowned for its rich wildlife and historical significance. The park spreads over an area of about 1,334 km². During the visit, the weather was fine for wildlife observation. The condition was favourable for both fieldwork and animal sightings. The park is home to a significant population of Bengal Tigers, and during the visit, we were fortunate to witness a tiger. Apart from tigers, the park boasts a diverse range of wildlife, including spotted deer, sambar deer, nilgai, and various species of birds. These sightings highlight the park's commitment to biodiversity conservation. The involvement of local communities in conservation initiatives was evident, with programs aimed at raising awareness and promoting sustainable practices. Despite conservation efforts, incidents of human-wildlife conflict were reported.

Outcome:

- ✓ The field visit to Ranthambore National Park provided valuable insights into its wildlife, conservation efforts, and challenges faced.
- ✓ Students address emerging issues and learn how to make balance between wildlife and human activities.

Report On Educational Visit to Rashtrasant Tukadoji Maharaj Nagpur University

Objective: The aim of this visit was to attend the scientific conference and to visit the world class laboratories of Rashtrasant Tukadoji Maharaj Nagpur University.

About the Visit: The Indian Science Congress played a pivotal role in scientific development of the country. The 108th Indian Science Congress (3rd-7th January, 2023) was organised at Rashtrasant Tukadoji Maharaj Nagpur University, Nagpur. Four faculty members along with 56 Students from the college participated in this conference. The theme was "Science and Technology for Sustainable Development with Women Empowerment". The Hon'ble Prime Minister of India inaugurates the Indian Science Congress. Eminent scientists, industry leaders, technocrats, innovators, academicians, policymakers, and academicians grace the occasion. Several other programmes like children science congress, farmers science congress, tribal science congress also took place alongside ISC. Subjects such as biotechnology, space, defence, health, quantum science were discussed in different sessions of this 5 days conference. All the session were highly informative and interactive. Students learned a lot from this event. They participated actively in all the session which not only enhances their knowledge but also intensify their interest in the field of research. Students also visited the laboratories of

the university. Student got the chance to see the Infrastructures of labs in terms of Equipment and Machinery used in Research and Development unit, process development unit and in production unit. Along with this student also visited Futala Lake, zero milestones, narrow gauge museum, deekshabhoomi, Raman science centre and many more. Thus in this 5 days visit to Nagpur students learned many amazing things which inculcates scientific outlook.

Outcome:

- ✓ Through this conferences students came to know about the **latest trends**, new technology advancements across the world
- ✓ Students got the opportunity to meet the eminent scientist from various fields
- ✓ Also got the chance to admire the beauty of Nagpur.

Report on Field Visit to 'Sariska Tiger Reserve'

Objective: The primary purpose of the visit was to assess the conservation efforts, habitat conditions, and wildlife management practices in the reserve. The visit aimed to gather information about the status of the tiger population, overall biodiversity, and the effectiveness of conservation measures implemented in the area.

About the visit: Department of Science organized a field visit to **Sariska Tiger Reserve on 17th December, 2022** for students. 145 Students along with 6 Faculty members visited **Sariska Tiger Reserve, located in Alwar, Rajasthan**. It stretches over an area of 881 km² comprising of scrub-thorns, dry deciduous forests, grasslands and rocky hills. It received the status of tiger reserve in 1978 and was declared a national park in 1982. The field visit to Sariska Tiger Reserve provided valuable insights into the current state of wildlife conservation in the area. Students got the chance of sightings of tigers and other wildlife species, evaluation of the vegetation cover and its suitability for wildlife. The various trees in the forests were **Dhok, Ber, Kadaya, Bargad, Bamboo, Kair**. Along with this students also identify challenges faced by the reserve in terms of conservation and management. The overall management and conservation efforts were commendable. It creates lasting impressions and influence students perspectives on the environment and their roles in its preservation.

Outcome:

- ✓ This visit offers students a holistic and experiential learning opportunity,
- ✓ Fosters a deeper understanding of ecological principles, conservation challenges among students.
- ✓ Students learnt the importance of sustainable practices.

Report on Industrial visit at 'Barefoot College' Tiloniya

Objective: The objective of the visit was to give students an insight of how the only college built by and for the rural poor operates and how it is being replicated globally.

About the visit: Students of Business Management (B.B.A) were taken for an industrial visit at 'Barefoot College' Tiloniya situated near Kishangarh (Ajmer) Rajasthan on 19th November 2022. The Barefoot College is located in the Ajmer district, between vibrant villages and yellow mustard fields. The most captivating features of this college are grandmothers getting training of solar engineering, the teaching method of puppetry. The main aim behind the foundation of barefoot was to improve the quality of life of people in the rural area. This college challenged the idea that learning is related to age. One can learn at any point in life, the only thing that is required is attitude and persistence. Barefoot educated grandmothers proved to be game changer for many villages not only in India but around the world. It lit many villages with solar bulbs just by training grandmothers in Afghanistan, Africa, Gambia and the process is still on. Barefoot architects constructed 20 RWH tanks in 3 districts of Rajasthan including Ajmer, Nagaur and Barmer during 2008-2009. The tanks have a total capacity of collecting 700,000 liters of rain water annually. There are 80 Pre-School Education Centers (PECs) being presently co-ordinated by BC and

attended by more than 2750 children in 3 districts of Ajmer, Jaipur and Barmer in Rajasthan, India. During the year the Society has been able to generate an annual income of INR 1,35,105 through fabrication and sale of solar cookers as well as its repairs and maintenance.

Outcome:

Through this industrial visit students learn:

- ✓ How a village can sustain on its own electricity.
- ✓ How they can create their own green environment.
- ✓ There is no age limit for being educated.
- ✓ Survival on green energy and women empowerment.

Field Visit to Rajasthan Forestry & Wildlife Training Institute

Objective: The purpose of the visit was to make students aware of various forest management practices, conservation initiatives, and sustainable forestry. To seek guidance control measures from the Forest Department and other forestry-related issues.

About the visit: The Rajasthan Forestry & Wildlife Training Institute in Jaipur stands as a cornerstone institution in the realm of environmental conservation and forestry management in the state of Rajasthan, India. Established with a mission to foster expertise and awareness in forestry and wildlife management, the institute plays a pivotal role in training professionals, conducting research, and advocating sustainable practices. Moreover, the institute maintains extensive green spaces and model forest areas to provide hands-on training opportunities for students and professionals. Students of M.Sc. along with their faculties visited the institute on **11th Oct 2022**. Various sessions were conducted by the forest department with the aim to create awareness about biodiversity among the students. In the session of apiculture students came to know about the crucial role of bees in pollination and food production. They also learnt the environmental and economic significance of beekeeping. In the session on wetland they learnt the significance of wetlands in the context of biodiversity, ecosystem services, and environmental conservation. Students also visited Kulish Smriti Van, a biodiversity forest in Jaipur. Gain a deeper understanding of the wildlife species found in Rajasthan, their behavior, and ecological roles. This session aims to raise awareness about the importance of wetlands, explore their biodiversity, and discuss the challenges and opportunities for conservation and sustainable use.

Outcome:

- ✓ Acquire knowledge about the conservation challenges faced by wildlife in Rajasthan and the institute's efforts to address these challenges.
- ✓ Gain insights into wildlife management practices, including habitat management, population monitoring, and captive breeding programs.
