## INDUSTRIAL VISIT AT POWER GRID BASSI

### Introduction:

The Transformative Power of Industrial Visits in Student Learning. In the ever-evolving landscape of education, the traditional classroom setting is undergoing a paradigm shift towards experiential learning. One powerful instrument in this educational orchestra is the Industrial Visit – a journey beyond textbooks and into the beating heart of industry. Industrial visit has its own place of importance in a career of a student who is pursuing a professional degree course like BCA. In fact, it constitutes a part of core course curriculum taught at the college. The objective of an industrial visit is to provide the students an insight regarding the internal working of companies. All this makes the importance of Industrial visits all too evident, especially for students pursuing a professional management course like BCA. BCA students of S.S.G.PAREEK P.G.COLLEGE went for an industrial visit on 18-01-2020 at POWER GRID CORPORATION OF INDIA LIMITED, BASSI with 4 faculty member, under the guidance of MRS. SHALINI GILL PAREEK (HOD OF BCA DEPARTMENT).

### Objectives:

Industrial tours to industries provide a chance for college students to visualize and experience real workstations, plants, machines, assembly lines, systems, and interact with highly trained and experienced personnel. This practical learning experience is important for the students who studied theory only and are unaware of a real production plant's daily workings.

### **THE BENEFITS OF INDUSTRIAL VISIT:**

1. Helps students to understand the functioning of the industry
2. Provides an insight into the real working environment
3. Provides an opportunity to plan, organize and engage things
4. A good opportunity to interact with the experts
5. Helps to enhance their interpersonal skills
6. Developed Confidence
7. Learning Experience
8. Help to understand the dos and don'ts of the industrial practice
